About

Matteo will take your summer dinner parties to the next level. The table's warm teak top balances out its bolder powder coated aluminium frame, which gives Matteo a unique texture and well-balanced look. Regarding the table top, the three wide slats of teak make Matteo stand out from any other outdoor table and give character to your dining area. Combine your table with the Light My Table lighting garland in order to magically create a cosy area for endless conversations filled with laughter.

Materials & care

Left outdoors, the colour of untreated teak will change to an attractive silver grey, aided only by an occasional wash with warm soapy water in order to discourage moss. The table's aluminium base can be cleaned with a damp cloth with mild soapy water. You can either leave your teak furniture to go a beautiful silvery grey, or choose to oil it.
