

VINCENT SHEPPARD

Tika collection

Product data sheet

TIKA

base (optional)	steel or teak base
shell	HDPE wicker
colour	camel or black
glides	black nylon

COLOURS

SOLAR LED MODULE

about	3W solar module with light sensor
temperature	2700K warm white
output	700 lumen
charging time	8 hours
plug	USB charging cable
IP rating	67

DIMENSIONS

VARIANTS

MAINTENANCE AND CARE

TEAK

Daily care

Use a moist towel or sponge with a mild solution of water and natural, non-aggressive soap.

Stubborn stains

If your furniture is stained, consider one of the following options:

- Grease spots have appeared on the furniture**
 This is a natural feature of the wood and grease spots should gradually disappear after being exposed to sunlight. However, should you wish to remove these blemishes, we recommend using a degreasing agent and gentle scrubbing with a brush. Rinse off with clean water.
- The furniture has developed mildew spots or black blemishes**
 This is usually the result of rainwater or sometimes sap dripping from the leaves of trees onto the wood leaving dark marks and spots. Ideally, we recommend the furniture is not placed under trees. However, these marks can be removed by lightly sanding with fine sandpaper.
- You spilled wine or something else leaving persistent stains**
 For wine and other stains, we recommend using a weak solution of bleach and water combined with a dishwashing agent to wipe the area clean.

SYNTHETIC WEAVE

For our all-weather outdoor collection, we use multiple synthetic materials, including polyethylene, polypropylene, HDPE wicker and HPL.

All our synthetic materials are specifically designed to withstand any weather conditions, are UV-resistant, and can be left outside all year long.

We recommend giving them a quick wash when dirty or every three months with a non-foaming mild detergent.

STEEL

Steel is used in our indoor collection as well as our outdoor collection, mainly for the legs and frames of our furniture pieces.

For the outdoor pieces, the steel is always epoxy coated and powder coated to make sure it is protected from all-weather influences.

Clean your armour with a moist towel and some natural soap!
