

VINCENT SHEPPARD

MATTEO COLLECTION

PRODUCT DATA SHEET

MATTEO DINING TABLE

MATTEO BENCH

TOP

material	laminated teak
thickness	4 cm
edge	slanted (table), straight (bench)
finish	untreated

FRAME

material	aluminium
glides	adjustable in nylon
features	2 mounting positions
finish	powder coated aluminium

TOP FINISHES

untreated teak
W011

FRAME COLOURS

black

dune white

MAINTENANCE AND CARE

TEAK

Daily care

Use a moist towel or sponge with a mild solution of water and natural, non-aggressive soap.

Stubborn stains

If your furniture is stained, consider one of the following options:

- **Grease spots have appeared on the furniture**
This is a natural feature of the wood and grease spots should gradually disappear after being exposed to sunlight. However, should you wish to remove these blemishes, we recommend using a degreasing agent and gentle scrubbing with a brush. Rinse off with clean water.
- **The furniture has developed mildew spots or black blemishes**
This is usually the result of rainwater or sometimes sap dripping from the leaves of trees onto the wood leaving dark marks and spots. Ideally, we recommend the furniture is not placed under trees. However, these marks can be removed by lightly sanding with fine sandpaper.
- **You spilled wine or something else leaving persistent stains**
For wine and other stains, we recommend using a weak solution of bleach and water combined with a dishwashing agent to wipe the area clean.

ALUMINIUM

Aluminium has a self-protective layer, which prevents corrosion and makes this material very suitable for outdoor applications.

On top of that, it is super easy to maintain. A quick wash with a non-foaming mild detergent every now and then is all it needs!
