TECHNICAL INFORMATION

CONSTRUCTION

Discover the Florence parasol collection, where timeless elegance meets functionality for the perfect outdoor experience. Designed to create the perfect shade, the Florence parasols combine sleek, minimalist lines with high-quality craftsmanship, making them a sophisticated addition to any garden, terrace, or poolside setting.

Crafted with a frame of solid eucalyptus wood, each parasol exudes natural warmth and durability. The canopy, made from Sunbrella fabric, protects you from UV rays while maintaining a luxurious feel. Available in four different sizes, the Florence parasol collection offers versatility, making it ideal for both spacious areas and more intimate settings.

Florence's base with wheels ensures effortless mobility, allowing you to adjust your parasol with ease as the sun shifts. Spend your time outdoors comfortably in the shade under an elegant roof of craftsmanship.

MAINTENANCE AND CARE

EUCALYPTUS WOOD

Vincent Sheppard's parasols are crafted from eucalyptus wood and finished with a matte urethane topcoat. This protective layer adds extra durability and provides a smooth, clear matte finish.

Regular cleaning with a mild solution of water and natural soap is all it takes!

Do not sand varnished furniture, as this will damage the protective layer and reduce the water and dirt resistance of the parasol.

FABRIC

COVER

The removable cover can be washed at 30°C. Bleaching is allowed, but do not tumble dry. Iron at low temperature. Avoid dry cleaning to preserve the quality of the fabric.
